Subject: AW: Invoice Traces etc.

Here you get the new contract, it is the same formular, but you are now "privat"

I signed it, because the seller as a contract with Ponyforum, to do that

And the invoice nr. 15376 is necessary, because the state vet sends the invoice to me, and I have already done several telefoncalls to make the transport sure for tomorrow

Hi Christian.

> Here you will receive the invoice for the international clearance.

Customs... Is that necessary for horses within the EU?

> Do you need to make any changes to the documents I have already sent?

Yes, I am awaiting a new contract telling I buy the horse as a private person..?

Thus, not yet returned.

The contract is not signed by the seller. How is that supposed to be managed?

Yours,

Bo Sinander

Good Morning, dear family Sinander,

Here you will receive the invoice for the international clearance.

Do you need to make any changes to the documents I have already sent?

Unfortunately, I have not yet received any signed contracts back.

We have also not yet received any money. If the horse is to be transported tomorrow, it must be paid for beforehand!

Best regards

Christian Tschoepke
